

GB200 Brushless Gimbal Firmware Update

08-28-14

If you wish to use the gimbal tilt control function with the Blade 350 QX quadcopters listed below , you must update the gimbal firmware using the procedure [Download Here](#), install a Spektrum™ DSMX® remote receiver to your gimbal and bind it to your radio during the bind procedure of the 350 QX.

The original BLADE® 350 QX (BLH7800/BLH7880)

Blade 350 QX Firmware Version 2.0 (BLH7800A/BLH7880A)
