

LEARNING KIT

TREES

LK953

Once you finish this Learning Kit, you will have the skills you need to model an entire forest.

INSTRUCTIONS

1. Bend and twist Tree Armatures into realistic, three-dimensional shapes (Fig. 1).
2. Twist Pine Armatures in a spiral fashion so branches point in different directions (Fig. 2).
3. Brush Hob-e-Tac on branches of Armatures (Fig. 3). Avoid trunk area where foliage does not naturally grow. Let dry until clear and tacky (approx. 15 minutes, drying times vary).
4. Dip Deciduous Tree Armatures in bag of Medium Green Clump-Foliage (Fig. 4). Shake excess material from tree. Pinch Foliage on branches to adhere.
5. Dip Pine Armatures into bag of Conifer Clump-Foliage. Shake excess material from tree. Pinch Foliage on branches.
6. Foliage can also be pinched on branches a little at a time (Fig. 5).
7. To secure Foliage on branches, spray with Scenic Cement™ (S191).
8. Place finished tree in optional base or poke a hole and “plant” tree on existing layout. (Fig. 6). Attach with Scenic Glue™ (S190).

WARNING: Sharp objects. Choking Hazard! Small parts. Not intended for children under 3 yrs. Adult supervision required.

AVERTISSEMENT: Objet pointu. Danger d'étranglement! Petites pièces. Pas recommandé pour les enfants de moins de 3 ans. Supervision d'un adulte requise.

ADVERTENCIA: Objetos puntiagudos. Peligro de ahogarse. Partes pequeñas. No diseñado para el uso de niños menores de 3 años. Supervisión de un adulto requerida.

WARNUNG: Scharfer Gegenstand. Erstickungsgefahr! Kleine Teile. Nicht für Kinder unter 3 Jahren geeignet. Nur unter Aufsicht eines Erwachsenen verwenden.

MODELING AND CARE INFORMATION

This kit suggests the use of adhesives which may stain or cause damage. Take care to cover project area and clothing appropriately. Follow recommendations for use and clean up.
